FreshBlender™

Integrated Beverage Systems

Models

- FB08ETF-R-GEN1

Standard Features

- Intuitive 20" touch screen user interface
- Integrated nugget ice maker, 30+ drinks/hour
- High performance single blade
- EcoBlend® technology featuring the next generation of blending in a cup, which reduces water and product waste
- Automated cup shuttle
- Volumetric pump system for improved product consistency and product waste
- Clean in place sanitation system
- Integrated refrigerated product storage
- Wireless and bluetooth connectivity

Specifications

Fresh Blends is a turn key program that delivers fresh, delicious, made to order cold beverages through a highly intuitive, user friendly system that is easy to install and maintain. The program is supported by two industry leaders in their respective fields. Multiplex has designed and built a state of the art beverage platform supported by one of the industry's largest aftermarket service networks, Welbilt KitchenCare. Fresh Blends North America has created an incredible menu of products for operators to choose from as well as a personalized marketing campaign to promote the product to consumers.

FreshBlender™ Integrated Beverage Systems
