

# MAXIMIZE OPERATIONAL EFFICIENCIES

with new solutions from

We know that the pandemic has greatly affected everyone in the foodservice industry, and that this impact will continue for the foreseeable future. That's why T&S has been hard at work engineering new ways to help make your operations more efficient, keep your customers and employees safe, and reduce costs by conserving water and energy. T&S is here for you on the road to a brighter future.

## WATERWATCH

- Monitor water consumption, detect leaks and optimize conservation measures
- Protect against catastrophic water failures
- Get notification of leaks and catastrophic failure with flooding
- Potentially save thousands in potential damage and lost revenue
- Get real-time and historical data by plumbing fixture and equipment type

## EVERSTEEL LINE

- Time-proven designs recreated in heavy-duty, lead-free true stainless steel
- Designed to meet all global certification requirements
- Unparalleled build quality at a lower price point than you might expect
- Options available in many categories
- More cleaning power and durability with new S-0107-Y spray valve (USA/CA only)

## HOSE REEL SYSTEMS

- All the necessary parts to ensure code compliance with one easy-to-install package
- Smart modeling number system makes specifying easy

## ULTRARINSE

- Easy-to-install swing nozzle attachment
- Helps wash produce & deglaze/thaw seafood faster, more effectively with less water
- Angled fan spray tips clean quickly and gently, washing away more dirt and bacteria
- Compatible with all T&S manual faucets and pre-rinse units with a swivel outlet body
- Available in 2 lengths: short for 12" nozzles, and long for 18" nozzles

## LAKECREST

- A beautiful and elegant new line of manual faucets
- Perfect for front of house or open-concept kitchens
- Features the reliability and durability T&S customers have come to rely on

## CHECKPOINT

- Improve hygiene and conserve water with hands-free sensor faucets
- Easy to retrofit
- Sensor-operated glass and bottle fillers offer touchless operation

## SAFE-T-LINK

- Safe-T-Link durable gas hoses have a lower cost of ownership
- Greater flexibility leads to longer hose life, higher flow rates and safer kitchens
- Safe-T-Guard quick disconnect shut-off valve helps prevent injuries and fire hazards

## PORTABLE HANDWASHING STATIONS

- Convenient hands-free sinks anywhere handwashing is needed, without water lines
- Easy sanitation for foodservice front-of-house, cafeterias and schools
- Constructed from durable, easy-to-clean stainless steel with simple assembly  
Sensor faucets, gooseneck-foot pedal combos, and other options available

## ANTIMICROBIAL HANDLES

- Create a barrier against microorganisms like bacteria, mold, mildew and fungi
- Available on freshly redesigned wrist-action, four-arm and lever faucet handles

## SENSOR BUBBLER

- Operate hands-free
- Increase hygiene in schools and other public areas
- Provide essential, sanitary hydration
